

My Science Fair Project

Name _____

Title

What is a short and specific title that describes your topic?

Background

Why is this important? What do I need to know first?

Hypothesis

What are you trying to find out? Can you make a prediction about what you expect to see?

Materials

What equipment, tools, and materials are required?

Procedure

In the course of your explorations you will change independent variables and measure the results. How will you run your experiments?

Independent Variables & Control

What will you change? What will you keep the same?

Dependent Variables

What will you measure?
