MET Annual Kareem Family Science Fair  
Project Evaluation Form  
3rd Grade – 5th Grade

Student Name(s) ____________________________________________ Grade ____________________

Project Title ____________________________________________________________

Judge/Evaluator Name ________________________________________________

Please circle the score for each criterion and note the total at the bottom

**Problem/Hypothesis (20 points)**
1. Problem is meaningful and well researched ___________________________ 1 2 3 4 5
2. Problem involves a creative approach ________________________________ 1 2 3 4 5
3. Hypothesis is testable ____________________________________________ 1 2 3 4 5
4. Problem is appropriate for the grade level and ability of the student(s) ________ 1 2 3 4 5

**Experimental Procedure (20 points)**
5. Steps of procedure are listed sequentially ____________________________ 1 2 3 4 5
6. Procedure is appropriate and thorough ___________________________________ 1 2 3 4 5
7. Procedure executed enough times and sufficient data collected to test the hypothesis ________ 1 2 3 4 5
8. Conclusions are supported by data ____________________________________________________________ 1 2 3 4 5

**Visual Display (20 points)**
9. Board is neat, attractive, and creative ____________________________ 1 2 3 4 5
10. Board is properly labeled _________________________________________ 1 2 3 4 5
11. Student’s originality is displayed (use of own handwriting, drawings, etc.) ________ 1 2 3 4 5
12. Photos/charts/graphs are used to appropriately display data; photo credits are shown ______ 1 2 3 4 5

**Presentation (40 points)**
13. Student speaks clearly and explains the project well ____________________ 1 2 3 4 5
14. Presentation tells a complete story about the project ___________________ 1 2 3 4 5
15. Verbal presentation is organized ________________________________________ 1 2 3 4 5
16. Sources of error have been considered _______________________________ 1 2 3 4 5
17. Attempts have been made to answer “why” or “how” _____________________ 1 2 3 4 5
18. Student is able to answer questions effectively ________________________ 1 2 3 4 5
19. Student displays subject comprehension ________________________________ 1 2 3 4 5
20. Student is confident and enthusiastic about topic ___________________________ 1 2 3 4 5

Total ______/100

**Judges Comments**
- What stood out about this project (please focus on positives and then areas of improvement)?
  ____________________________________________________________

- Any tips for next year?
